

BEGICI

Becici hotels

Becici is a coastal tourist resort in Montenegro, tourist complex set behind the renowned Becici Beach, near the historic town of Budva on Montenegro's Adriatic coast. It's a leisurely location, the beautiful sandy beach and general amenities make it ideal for families. The spacious beach is ideal for children and adults. Beach restaurants offer refreshing drinks and light snacks. If you decide to spend the day on the palm-lined terrace of the spacious pool, the breathtaking view over the blue sea will leave you speechless. A centre for bathing and relaxation, it offers a wide range of water sports and other sporting facilities. Becici beach won the "Grand Prix" in Paris in 1935 as the most beautiful beach in Europe.

Modern, tourist-focused Becici is perfectly complemented by the charms of the old walled town of Budva, with its selection of cafes, restaurants and shops, which is just over a mile away along the coastal promenade. Through the Becici passes the main road which connects Petrovac with Budva. From the bottom side of the street, next to the sea, are located only hotels. On the upper side of the street there are a lot of villas, private apartments and houses. Accommodation capacity is increasing every year, but during the summer months is always required one bed more. The crystal clear sea, the invigorating flora, culinary delicacies, the unique architecture and location of the resort, all contribute to the fact that guests who have discovered this place will always come back.

Rafailovici is a small fishing place at the end of Becici, with crystal clear sea and 226 sunny days in the year. Along the very beach there is a walk path 3km long which connects this place with Budva. Apart from beautiful beach and landscape, Rafailovici has got a marina for speed boat and boats, there are many cafe bars, restaurants parks etc. The vicinity of Sveti Stefan and Budva makes this place attractive for both peaceful and active vacation full of entertainment.

HOTEL SPLENDID 5*

HOTEL ROOMS: 322
