

CANJ, SUTOMORE, BAR

Hotels

Canj, Sutomore and Bar

Bar region in Montenegro begins in the southeast of Budva Riviera, Petrovac and after the Gulf Buljarica. Just from that place to the town of Ulcinj beaches occupy a small area just 7.3 km to 77 km over the entire surface of this coastal area, which is largely responsible for the configuration of the terrain in some places quite steeply down to the sea. Moving from Petrovac and Buljarica passenger passerby encounters three arranged one after the other introduced in which tourist resorts are located Canj, Sutomore and also Montenegro's main port city of Bar. All three tourist centers appear as a very popular place for holiday tourists from Serbia and Bosnia and the attractiveness of these places has contributed to the image of the most inexpensive destinations in terms of accommodation and meals.

Canj

Canj is a tourist settlement with several hotel category 2 * and 3 * as well as private accommodation which is rent only in the summer during the tourist season. Prices are generally lower than on the Budva Riviera, but the infrastructure of the village is proportionally less developed. Sandy beach length 830 m is called the pearl coast and is known for its fine sand. Besides beaches, there are coffee bars, restaurants and fast food facilities. On the southeast side of the Canj bay is Sutomore bay where there is a tourist place Sutomore. The Queen's beach is situated in the vicinity of Canj, at its very north. This small but attractive beach can be approached only from the sea. It is surrounded with sediment cliffs. Because of its environment, fine sand and crystal clean sea water, it was the favorite beach of queen Milena when coming to the Topolica castle.

Sutomore

At a distance of only 4 km from Canj and 5 km from the town of Bar, along with local road and railway town of Sutomore is known for its wide sandy beaches. Sutomore is located on the banks of a small bay in the surrounding vineyards, olive and grape, tangerine, orange and lemon.

Regardless of their size Sutomore provide for himself popularity of both domestic and foreign tourists because of the economic and affordable accommodation and food prices due to the fact that he is only 30 minutes away from Podgorica, which contributes to the fact that many residents of the capital came to the beach in the morning and evening return home either by bus, car or the local train which is popularly known as "bathing train". Unlike Canj, Sutomore is much larger settlement in which life takes place throughout the year due primarily near the town of Bar, and that the issuers of private accommodation in Sutomore live as opposed to Canj where people come only during the summer in their vacation homes and receive visitors in the rooms and apartments. In addition to private accommodation in Sutomore there are several hotels with 2*, 3 * and 4*. The infrastructure is developed on the coast alongside the beach; there are numerous cafes, restaurants, facilities with fast food, shops, and discos. On the beach provides a large number of water activities.

Amongst its numerous monuments of the past, the tourist attractions most likely to capture your attention are the Church of St. Tekla with its Orthodox and Catholic altar, the ruins of the Benedictine monastery in the pine trees area of Ratac and Haj Nehaj fortress.

Bar

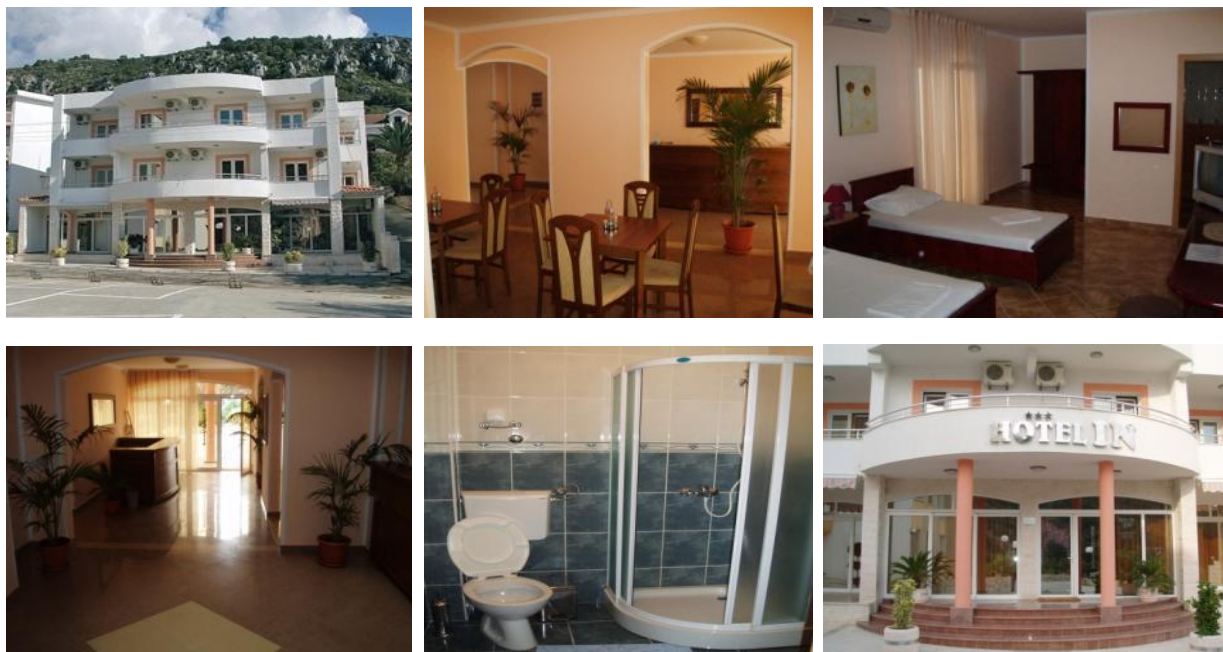

A modern city with wide boulevards, surrounded by Mediterranean vegetation, Bar represents the biggest tourist and nautical centre at the entrance to the Adriatic Sea. It is the ending railroad station on the railroad Belgrade-Bar and is the seat of the Bar Riviera and the Bar municipality. It is divided into Stari Bar (Old Bar), Bar and the port.

Old Bar is situated in the hinterland of the Bar plain some 5 km from the sea. It consists of an enclosed town of around 600 buildings of public, religious and military character. The majority of the buildings date back to the Middle Age and Renaissance period. Other buildings belong to the period of Turkish occupation. All the buildings are located inside the city walls and most of them are ruined. Residential architecture has late Gothic, Renaissance, and oriental elements. The architecture is characterized by a powerful fortified system built in the late 15th century and during the 16th century, consisting of towers and linked defensive walls. There are the remains of 17 churches out of which some are conserved and restored. In the immediate vicinity of the town there are many medieval churches, bridges, and oil and flour mills and an aqueduct from the late 16th and early 17th century. The fortress is now an open-air museum.

This is the region of the great olive-growers and olive oil producers. They can boast about having the oldest olive tree that sprouted two millenniums ago! This olive tree, with the developing port, is the dominant symbols of the town. The medallion of the International Television Festival, which is held every year in this peaceful town, has the shape of this ancient olive tree. According to legend, no resident of Bar could get married unless they planted at least ten trees of this noble Mediterranean plant.
